# MEALS

An important part of Valiant Living's Wellness Program, is encouraging a holistic approach to recovery, including diet and nutrition. While in the PHP program, our culinary team will prepare meals for you that will help you live a balanced lifestyle.

Groceries are also provided during the PHP portion of your stay so you can customize your meals to your specific needs.

# WEEKENDS AT VALIANT

Our wellness team plans activities for you every weekend. This is an important part of your recovery. Excursions include hiking, fly fishing, top golf, and many other activities that take advantage of the beauty of Colorado.

# FREQUENTLY ASKED QUESTIONS

- Will I have my phone during treatment?
  - We look at each individual's needs differently. Typically, clients have their phone supervised for an hour a day for the first couple weeks. However, we reserve the right to give less or more depending on what's best for that person's recovery.
- Will I have a roommate?
  - That is a possibility. Housing is spacious and comfortable. Room assignments depend on the number of clients in treatment at that time and where they are in their recovery process.
- Can I bring a device to listen to music?
  - Yes. However, for the first couple weeks it will have to be a simple MP3 player. No screens or browsers.
- Are there workout facilities?
  - Yes. We have a great partnership with Club Greenwood. Clients are members for the duration of their stay with us. There is time carved out everyday for physical wellness.
- Can I have visitors?
  - Depending on your situation, day passes and overnights are granted to see family and friends. Typically this comes towards the end of your treatment process.
- Can you accommodate special dietary needs?
  - Yes. We have a chef that prepares meals for the PHP level of housing. But, we also do frequent grocery runs to make sure you have what you need.
- Do I have time to work?
  - During the PHP level of care, we strongly encourage you to not work and be fully present for your treatment. In IOP, clients are encouraged to begin integrating into a more limited work load. Depending on your work situation, special accommodations can be considered.
